This KID is produced by GRIT Fund Management Company Ltd (the "Fund Management Company"), which is a subsidiary of GRIT Governance Ltd www.gritfundservices.fi | Phone: +358 20 7613 350

WIP Nordic Equity UCITS (the "Fund") is a UCITS fund that may be marketed to retail investors in Finland. The Finnish Financial Supervisory Authority is responsible for supervising GRIT Fund Management Company Ltd in relation to this Key Information Document. GRIT Fund Management Company Ltd and this product are authorized in Finland and regulated by the Finnish Financial Supervisory Authority. The portfolio management of the Fund has been delegated to WIP Asset Management Ltd (the "Portfolio Manager").

This Key Investor Document is valid as of 1 January 2023.

What is this product?

Type: The Fund is a Finnish UCITS fund in accordance with the Finnish Act on Common Funds (213/2019).

Term: The Fund does not have a set maturity date. The Fund may be unilaterally terminated by the Fund Management Company following the procedure set out in the fund rules and the prospectus.

Objectives: The Fund is an actively managed equity fund investing primarily in listed equities in the Nordic region, with no separate focus on sectors. The Fund invests both in growth and mature companies that the Portfolio Manager deems to have the potential to perform well in the long-term. At least two thirds of the Funds assets are invested in equity. Since the investments are individually selected by the Portfolio Manager, the performance of the Fund may deviate from that of the market as a whole. The Fund's objective is to provide positive risk-adjusted returns in the long-term.

The Fund does not follow a specific benchmark. The Fund may to a certain extent utilize derivative instruments such as options for hedging purposes or as part of the Fund's investment strategy. Any dividends received by the Fund are reinvested into the Fund. The Fund's return is determined by the increase or decrease in value of the holdings in which the Fund invests in during the holding period. Fund units can normally be subscribed and redeemed on each Finnish Banking day, following the procedure set out in the fund prospectus.

Intended retail investor: This Fund may be suitable for investors who plan to hold their investments for at least five (5) years and who understand that the money invested in the Fund may both increase and decrease in value and that it is not certain that the entire capital invested can be returned. Investing in the Fund does not require any specific prior knowledge or experience of this type of fund or the financial markets overall.

The Fund does not actively follow a specific benchmark, but the OMX Nordic EUR GI has been chosen as a benchmark for the data presented herein, since necessary historical performance data for the Fund is not available, as well as for the calculation of the performance fee charged by the Fund. The Portfolio Manager deems it an appropriate benchmark taking into account the characteristics of the Fund and the benchmark itself.

Skandinaviska Enskilda Banken AB (publ), Helsinki branch acts as the depository for the Fund.

The fund rules, prospectus, this Key Information Document, the latest available half-yearly- and yearly report, information on how to invest in the Fund as well as the latest unit value of the Fund can be obtained from the Portfolio Manager or the Fund Management Company.

What are the risks and what could I get in return?

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows you how likely it is that the product will lose money because of movements in the markets. We have classified this product as 4 out of 7, which is medium risk class. This means that the Fund has a medium risk of increases and decreases in the fund unit value. The indicator primarily reflects the increases and decreases of the instruments in which the fund has invested.

There may be other risks associated with the product not captured by the risk indicator, such as:

Counterparty risk – A risk that a counterparty to the Fund is unable to meet its agreed obligations, for example in connection with the clearing of securities or other financial instruments, or if the counterparty does not act in accordance with the agreed terms.

Operational risk – A risk of loss due to, for example, system-, human- or external errors.

A summary of the main risks relevant to the Fund can be found in the fund prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

What happens if GRIT Fund Management Company Ltd is unable to pay out?

By law, the Fund's assets may not be held in custody by the Fund Management Company. Instead, each fund must have a specific depository that handles the safekeeping of the Fund's assets. In the event of the bankruptcy of the Fund Management Company, the management of the Fund is taken over by the depository, which for this Fund is Skandinaviska Enskilda Banken AB (publ), Helsinki branch. There is no compensation or guarantee scheme for investors in the Fund.

What are the costs?

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the recommended holding period we have assumed the product performs as shown in the moderate performance scenario above.
- EUR 10 000 is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	223 EUR	1564 EUR
Annual cost impact*	2,23 %	2,23 % each year

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is expected to be 9,94 % before costs and 7,71 % after costs.
