The manufacturer of this product is GRIT Fund Management Company Ltd (the "AIFM"), which is a subsidiary of GRIT Governance Ltd.
www.grit.fi | Phone: +358 20 7613 350

WIP Technology Fund AIF (the "Fund") is an Alternative Investment Fund, which may be marketed to professional and retail investors in Finland. The AIFM is authorized in Finland, and the Finnish Financial Supervisory Authority is responsible for supervising the AIFM. The portfolio management of the Fund has been delegated to WIP Asset Management Ltd (the "Portfolio Manager").

This key information document was produced on 15.07.2026.

What is this product?

Type: The Fund is a Finnish special common fund in accordance with chapter 16a of the Finnish Act on Alternative Investment Fund Managers (162/2014).
Term: The Fund does not have a set maturity date. The Fund may be unilaterally terminated by the AIFM following the procedure set out in the fund rules and the prospectus.

Objectives: The Fund is an actively managed equity fund investing in listed technology companies globally. The investments of the Fund can be divided into three categories: 1) stable, global, and large technology companies, 2) fast growing platform companies that are increasing their market share, and 3) small and mid-sized technology companies in the Nordics. These three categories allow the Fund to better diversify its risk in the ever-changing technology industry. The Fund does not follow a specific benchmark. Since the investments are individually selected by the Portfolio Manager, the performance of the Fund may deviate from that of the market as a whole. The Fund may to a certain extent utilize derivative instruments such as options for hedging purposes. Any dividends received by the Fund are reinvested into the Fund. The Fund's return is determined by the increase or decrease in value of the holdings in which the Fund invests in during the holding period. Fund units can normally be subscribed and redeemed on each Finnish Banking day, following the procedure set out in the fund prospectus. See the section 'How long should I hold it and can I take my money out early?' for further information.

Intended retail investor: This Fund may be suitable for investors who plan to hold their investments for at least five (5) years and who understand that the money invested in the Fund may both increase and decrease in value and that it is not certain that the entire capital invested can be returned. Investing in the Fund does not require any specific prior knowledge or experience of this type of fund or the financial markets overall. Potential investors should be aware that historically, technology companies have been more volatile than equity markets overall.

Fund unit class A has been chosen as the representative for the calculations of the performance scenarios and the costs associated with the Fund below, as it is deemed to give the fairest and most realistic view of the actual performance and the costs for retail investors. The Fund does not actively follow a specific benchmark, but the MSCI ACWI Net Return EUR index has been chosen as a proxy for the data presented herein, since necessary historical performance data for the Fund is not available. It is also the basis for the calculation of the performance fee charged by the Fund. The Portfolio Manager deems it an appropriate proxy taking into account the characteristics of the Fund and the proxy itself.

Skandinaviska Enskilda Banken AB (publ), Helsinki branch acts as the depository for the Fund.

The fund rules, prospectus, the latest available annual report, information on how to invest in the Fund as well as the latest unit value of the Fund can be obtained free of charge from the Portfolio Manager or the AIFM.

What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows you how likely it is that the product will lose money because of movements in the markets. We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level. The indicator primarily reflects the increases and decreases of the instruments in which the Fund has invested.

The results of the calculations below are based on a specific fund unit class, and the results may vary depending on the fund unit class chosen, as they might have different costs from those presented. The costs of each fund unit class are disclosed in the fund's prospectus.

There may be other risks associated with the product not captured by the risk indicator, such as:

Counterparty risk – A risk that a counterparty to the Fund is unable to meet its agreed obligations, for example in connection with the clearing of securities or other financial instruments, or if the counterparty does not act in accordance with the agreed terms.

Operational risk – A risk of loss due to, for example, system-, human- or external errors.

A summary of the main risks relevant to the Fund can be found in the fund prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Key Information Document

Performance scenarios

The figures shown include all the costs of the product itself. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavorable, moderate and favorable scenarios show the worst, average, and best performance of the product and the chosen proxy during the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Unfavorable scenario: This type of scenario occurred for an investment and the proxy between 2018-2022.

Moderate scenario: This type of scenario occurred for an investment and the proxy between 2019-2024.

Favorable scenario: This type of scenario occurred for an investment and the proxy between 2016-2021.

Recommended holding period: 5 years

Example Investment: 10 000 euro

Scenarios		If you exit after 1 year	If you exit after 5 years
<u>Minimum</u>	There is no minimum guaranteed return. You could lose some or all of your investment.		
<u>Stress</u>	What you might get back after costs	3 350 EUR	2 460 EUR
	Average return each year	-66,5 %	-24,5 %
<u>Unfavorable</u>	What you might get back after costs	5 520 EUR	8 410 EUR
	Average return each year	-44,8 %	-3,4 %
<u>Moderate</u>	What you might get back after costs	10 710 EUR	10 560 EUR
	Average return each year	7,1 %	1,1 %
<u>Favorable</u>	What you might get back after costs	15 770 EUR	19 400 EUR
	Average return each year	57,7 %	14,2 %

What happens if GRIT Fund Management Company Ltd is unable to pay out?

By law, the Fund's assets may not be held in custody by the AIFM. Instead, each fund must have a separate depositary that handles the safekeeping of the Fund's assets. In the event of the bankruptcy of the AIFM, the management of the Fund is taken over by the depositary, which for this Fund is Skandinaviska Enskilda Banken AB (publ), Helsinki branch. There is no compensation or guarantee scheme for investors in the Fund.

What are the costs?

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the recommended holding period we have assumed the product performs as shown in the moderate performance scenario above.
- EUR 10 000 is invested

	If you exit after 1 year	If you exit after 5 years
<u>Total costs</u>	155 EUR	836 EUR
Annual cost impact*	1,6 %	1,6 % each year

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2,6 % before costs and 1,1 % after costs.

Key Information Document

Composition of Costs based on an investment of EUR 10 000

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 EUR
Exit costs	We do not charge an exit fee.	0 EUR
Ongoing costs		
Management fees and other administrative or operating costs	1,4 % of the value of your investment per year. This is an estimate based on actual costs over the last year.	144 EUR
Transaction costs	0,1 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments of the product. The actual amount will vary depending on how much we buy and sell.	11 EUR
Incidental costs taken under specific conditions		
Performance fees	0,0 % on average of the value of your investment per year. The performance fee is 20% of the part of the return that exceeds the return of the chosen benchmark during the calculation date and its current calendar year, following a fulcrum fee model. The prospectus contains a detailed description of the calculation method used. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years for the Fund and the chosen benchmark.	0 EUR

Different costs may apply depending on the fund unit class applicable.

How long should I hold it and can I take my money out early?

Recommended holding period: 5 years

The Fund has no required minimum holding period but, since it invests in equities, it is suitable for a medium-long to long investment horizon. You should be prepared to hold your investment in the Fund for at least five (5) years. You normally have the option to sell your fund units on each Finnish banking day. The AIFM may, in accordance with the fund rules, temporarily suspend or restrict redemptions, extend the notice period, and charge a redemption fee.

How can I complain?

The AIFM has established a Complaints Management Policy, which is available free of charge from the AIFM. If you wish to make a complaint about the product, you can contact the person who advised you or sold you the product. You can also contact the AIFM by writing to info@grit.fi or post your complaint to: **GRIT Fund Management Company Ltd, Pitkätatu 34 C, FI-65100 Vaasa, Finland.**

Other relevant information

Past performance

This chart shows the fund's performance as the percentage loss or gain per year over the past 5 years. The launch date of the Fund was 31 March 2021.

Past performance is not a reliable indicator of future performance. Markets could develop very differently in the future. It can help you to assess how the Fund has been managed in the past.

Performance is calculated based on the net asset value of the Fund.

Historical performance scenarios

The Fund's previous historical performance scenarios are available from the AIFM.

Information documents

Information about the Fund is disclosed in the fund rules and its prospectus, which are available from the Portfolio Manager or the AIFM, together with the current version of this key information document and the Fund's latest annual report.
